### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Reasons for Allowance

Claim 26 has been amended to correct obvious typographical errors, based on specification paragraph 0022 and original claim 12.

3. The application has been amended as follows:

In claim 26,

line 3, "expaned" has been changed to --expanded--;

line 4, "keytone" has been changed to --ketone--;

line 4, the second occurrence of "polyimide" has been deleted;

line 5, after "urethane," , --and-- has been inserted;

line 5, "silicon" has been changed to --silicone--;

lines 5-6, ", and silicon" has been deleted.

Art Unit: 1773

4. New corrected drawings are required in this application because the figures contain handwritten drawings and text which is difficult to read. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose a method of making a medical device comprising using plasma polymerization to deposit a first layer with functional groups on the device surface, followed by bonding a superoxide dismutase mimic compound to the functional groups of the first layer. The UDIPI reference fails to disclose the use of plasma polymerization to generate a functionalized surface or base layer, while RUPP fails to suggest the bonding of an anti-inflammatory synthetic enzyme compound to a plasma polymerized layer with functional groups.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
